SINCE
1987

Clay-2-Go Kit Contents:
500ml Clay Lube; 200gm Clay;
Micro-fibre cloth

Code: XP-900286

Fall-out eraser kit

- Easily removes paintwork contaminants such as industrial fall-out, tree-sap etc.
- Revolutionary Clay-2-Go removes harmful environmental contaminants e.g. paint overspray, industrial fall-out, tree-sap, brake dust, emulsion paint spatter, rail dust, volcanic ash, acid rain, etc, which can become bonded into the upper layer of automotive lacquers, chrome, trims, glass, plastics and stainless steel.
- Conventional cleaners, polishes and rubbing compounds will not lift or remove these surface defects, felt as gritty particles when drawing a finger across the vehicle surface, even if they cannot always be seen!
- Clay-2-Go is the safe and easy to use handy and efficient tool to remove these contaminants completely and restore a mirror smooth surface prior to polishing.
