

Product Data Sheet

LEATHER CREME

- **Nourishes & Protects:** Leather Crème is a unique blend of natural oils used to replenish those oils in leather which deplete over time. Regular use will protect the leather, keeping it supple and improve stain resistance.
- **Plastic Conditioner:** Leather Crème is also suitable for use as a Silicone Free Conditioner for enhancing the appearance of vinyl dashboard, trim fascia and other interior/exterior plastic parts.

Directions for Use:

Do not use on suede or similar finishes. Always test first on an inconspicuous area to check that the leather surface is colourfast and water resistant. Soiled leather should be pre-cleaned using XPERT-60 Leather Cleaner #XP-90008.

Shake Container Before Use: Apply Leather Crème with a clean dry soft cotton cloth. Rub gently into the surface until the crème is dispersed.

Allow to penetrate surface. Buff with dry cloth, to reduce level of gloss as required.

Frequency of Use: In temperate climate conditions, 2 treatments per year should be sufficient to maintain the suppleness of the leather. In more severe i.e. hotter, drier climates, use regularly but sparingly to keep leather at its best condition.

Code: XP-90033

Pack size: 500ml
