

## Product Data Sheet

# Xpert-60 Long-Life Wax Sealant

SINCE  
1987

500ml/16.9fl.oz  
Code: XP-90020

### Long Lasting Protection

- Synthetic wax coating which cures to form a tough, long-life barrier against environmental attack, even in the harshest climates.
- Fully tested on both automotive & marine paints, contains advanced screening technology to lock-out harmful UV sunlight.
- Leaves a deep gloss shine and repels water and dirt build-up for easy maintenance.

### Directions for Use:

Ensure paint surface is clean and avoid working in direct sunlight.

Shake well before use.

By Hand:

Apply a small amount of wax to a clean Xpert-60 Polish Applicator or Microfibre Detailing Cloth. Spread a thin, even coat across the surface. Allow to 'haze' and use a clean Xpert-60 Microfibre Detailing Cloth to buff to a high gloss shine.

By Machine:

Apply a small amount of wax to an Xpert-60 Black Finishing Foam. Prime the pad and panel surface ensuring a thin and even coating. Use machine to polish paint surface, reducing pressure as wax film starts to clear. Buff away any wax residue with a clean Xpert-60 Microfibre Cloth.
