NANO SHAMPOO CONDITIONER

xpert-60 is a trade mark of Concept Chemicals & Coatings L.L.U. © Copyright Concept Chemicals & Coatings Ltd 2017

THE ULTIMATE pH NEUTRAL NANO SHAMPOO & CONDITIONER TO CARE FOR YOUR CAR OR BOAT

- Easily cleans road traffic film and dirt without removing your vehicle's protective wax coating.
- Delivers a superb high-gloss reflective finish.
- Nano "Lotus-Leaf" effect means that rinse water is rapidly driven away from all surfaces, reducing drying time and minimising water spotting.
- Super concentrated formula 1: 300
- Fully biodegradable – Compliant to MARPOL Annex 5 1.7.5 and declared not to be harmful to the marine environment.
- Lo-foaming and fragranced.

Directions for Use: Do not use at excessive concentrations.

Do not wash vehicles in hot/direct sunlight.

Do not allow the shampoo to dry out on the surface.

1. Using a pressure cleaner or hosepipe, use plain water to rinse off any loose dirt or grit from the vehicle surface.
2. Add 3 capfuls of NANO SHAMPOO CONDITIONER (= 3 x 10ml) into a bucket of 10 litres of warm or cold water. One clic-loc cap filled brim-full is exactly 10ml.
3. Using a Jumbo Sponge, agitate the solution in the bucket to generate foam.
4. Shampoo the vehicle with the loaded sponge, working from the roof down. To maintain a clean sponge surface, regularly re-charge in the bucket.
5. Finally rinse off detergent thoroughly with clean water.
6. Finish by removing any water residues with an AUTO-DRI synthetic drying cloth.

Code: XP-90031

Pack size: 1L
