

Product Data Sheet

Xpert-60 Tyre Creme

SINCE
1987

225gm/7.9oz

Code: XP-90017

Super-fast 'as-new' dressing

- Latest innovation in coatings technology for quick & easy detailing of tyres and rubber & plastics.
- Superior silicone crème delivers long lasting, high gloss, low-tack dressing.
- Applicator sponge is clean to use and reduces messy fling on wheels and arches.
- Fantastic economy; one 225g container details 80 tyres

Directions for Use:

For best results ensure tyre walls are clean and dry.

Remove tab seal from container.

Pick-up a small amount of Crème onto the applicator pad. Apply the Crème by spotting the tyre in a series of dots. Then simply join the dots of Crème, working the dressing around the tyre in a circular motion to create an even and uniform finish.

Wipe around the tyre wall in a circular motion ensuring even coverage.

Re-apply additional Crème for extra gloss if required.

Caution: Suitable for use only on car tyre walls. Remove any excess Creme from tyre tread before driving the vehicle.
